

LEG HSE Handbook Acknowledgement Form

As a leader at Lewis Energy Group, I _____,
acknowledge receipt of the LEG HSE Handbook and understand
that the LEG/OSHA policies referenced in said handbook are
requirements and that failure to adhere to/enforce these
policies within my day to day functions as a supervisor will
result in disciplinary action which may include termination.

The purpose of the LEG HSE Handbook is to assist LEG Team
Members in making safety an integral part of their daily work
habits. This is a guide to the minimum requirements necessary
in identifying each Team Member's responsibility for safety.
Just as you are responsible for the safety of your Team
Members, your supervisor is obligated to hold you responsible
for your safety by enforcing these policies and by providing you
a safe place to work.
