

Company Name:											
Permit Start: Date: Time:				Permit Completion: Date: Time:							
Work Area:											
Specific Equipment To Be Worked On:											
Work Description/Purpose:											
Note: A new permit must be obtained at the beginning of each new shift.											
SPECIAL PRECAUTIONS											
1. Pre-job safety meeting (JSA) held with all affected personnel?										[]	
2. Have all combustible and flammable materials within 35 feet of hot work area, been relocated or protected?										[]	
3. Is the atmosphere acceptable for performing hot work? Ventilated [] Cleaned [] Purged [] Inert []										[]	
4. Has the affected equipment been isolated? Disconnected [] Blind plated [] Double block and bleed [] Blind Flange []										[]	
5. Have all energy sources been identified and isolated? Electrical [] Pneumatic [] Hydraulic []										[]	
6. Have all ignition sources been identified (cathodic protection, iron sulfide, etc.)?										[]	
7. When welding around non-combustible walls have combustibles been relocated or a fire watch stationed on both sides?										[]	
8. Has an inspection been completed with person performing the hot work to identify potential fire /explosion hazards?										[]	
9. Has Fire Watch been trained in assigned duties?										[]	
10. Have all floor openings/cracks where sparks could ignite material below been protected?										[]	
ATMOSPHERIC TESTING											
Instrument:				Serial#:				Calibration Date:			
Authorized Gas Tester:				Frequency: [] Initial [] Continuous [] periodic							
Test	Reading	Time									
O ₂	19.5% - 23.5%										
LEL	>10%										
H ₂ S	10 PPM										
CO	35 PPM										
Instrument:				Serial#:				Calibration Date:			
Authorized Tester:				Frequency: [] Initial [] Continuous [] periodic							
Test	Reading	Time									
NORM	50 µRems (AB)										
PERSONAL PROTECTION											
Grounding/Bonding []				SDS Review []				Non-Sparking Tools []			
Fire Extinguisher []				Fall Protection []				Emergency Rescue []			
Lockout/tagout []				Classified Electrical Area []				Emergency Exits []			
AUTHORIZATION SIGNATURES											
Requesting Representative:						Permit Cancellation:					
Fire Watch:											
Authorized Company Representative:
